

Compact 608 GL CI Gearless Flexo – The Best Solution for Midweb Printing

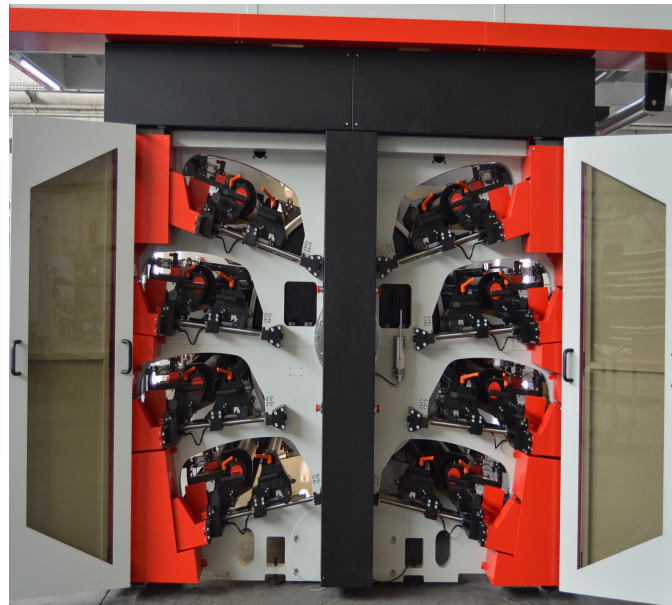

Advantages:

- Centralized touch screen control and web inspection
- Registers in 1 revolution – using 15' of material
- Print 1 or both sides up to 8/8
- Superior web tension – compared to an inline press
- Multiple drying options – for water-based, solvent, & UV inks
- Sleeved anilox & plate cylinders for shortest changeovers
- Advanced tool-less chamber system
- Fast speed up to 1000'/min
- Water-cooled central impression cylinder to stabilize web temperature
- Fast makeready – great for short runs

Available Models:
